Speaker: Tom Sutcliffe

SPECIALISTS IN COMMERCIAL LAW

This informative presentation is intended to confirm the things that each every director should already know, but often doesn't.

Prior to the Companies Act 2006, the duties and responsibilities of a director had developed through time by reference to the decisions of the courts in the cases that were brought before them. Now, for the first time, they are in black and white and, therefore, supposedly less vague and impossible to ignore. We will discuss each of the duties dealt with in the legislation and provide examples of how they may give rise to practical issues in the day to day life of a company director.
